

Seat Fillers Mobile App

Background:

If you could attend just one spectacular event in life, what would it be? And how do you find tickets to those incredible venues once regarded as hard to find or could only be achieved once in a lifetime? The visionary concept of Seat Fillers Mobile App was sparked in October 2014 through the idea of being able to provide individuals with access to any and every venue one could imagine. Look no further because Seat Fillers allows you the flexibility to find "Tickets whenever, wherever..."

Seat Fillers enables a community of Ticket Buyers to locate Ticket Sellers seeking to sell their tickets for any concert, sporting event and/or liberal arts venue. Seat Fillers will serve as an advertising media for Ticket Sellers, allowing them to post ticket information, select a preferred selling location, sell their on-hand tickets, and provide the buying community with a unique ticket buying experience. Seat Fillers is a mobile community of ticket purchasing on the go.

Operational Functionality:

A user will sign in or sign up (first time users) in Seat Fillers, then select "Buyer" or "Seller". Selecting "Buyer" will direct the user to screens that prompt him or her to search for all Sellers possessing tickets to a preferred event. Furthermore, Seat Fillers allows Buyers to locate and communicate directly with Sellers through a reliable messaging feature.

If the user selects "Seller", he or she will have the option of posting ticket information for either 24 hours or 30 days. The Seller will then be allowed to post and edit as much ticket information onto the app within the selected timeframe. After choosing the posting duration, the Seller will be directed to the Seller Home Screen, where he or she can add or edit ticket information, as well as chat with interested Buyers. Sellers will post accurate and up-to-date information onto Seat Fillers, enabling the buying community to effectively search, locate, and contact Sellers about their posted ticket information; ultimately, allowing Buyers the opportunity to purchase hard to find, last minute, and spectacular tickets to some of the most sought after events in the world.
